Touch The Fire

Vicci Martinez

She moves like a mystic
Like a priestess, tall and pale
She lays down the mystery
All her secrets are unveiledWherever I look, I see her there
Wherever I go, you know she's there
And she takes possession, she has control
Next to you, I can touch the fireAnd when the fever takes a hold
Next to you, I can touch the fireHer words fall in echoes
Ringing bells like gypsy rhymes
She has the power
No believer can explainWherever I look, I see her there
Wherever I go, you know she's there
And she takes possession, she has control
Next to you, I can touch the fireAnd when the fever takes a hold
Next to you, I can touch the fireI feel the heat pumping in my veins
Next to you, I can touch the fire
I see myself going up in flames
Next to you, I can touch the fireWherever I look, I see her there
Wherever I go, you know she's there
And she takes possession, she has control
Next to you, I can touch the fireAnd when the fever takes a hold
Next to you, I can touch the fireI feel the heat pumping in my veins
Next to you, I can touch the fire
I see myself going up in flames
Next to you, I can touch the fireShe takes possession
Touch the fire, touch the fireI feel the heat pumping in my veins
Next to you, I can touch the fire
I see myself going up in flames
Next to you, I can touch the fire
