

# The Two Sides Of The Coin

## Fear of God

The coin has got two different sides  
One with our laughing Western society  
On the other one, death and starvation is grinning at you!  
It's so difficult to do things right, so you say  
Fatten the ones, starve the others  
If only both sides gained the same value  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
