Friendship

Sloan

Jolene you were the best friend I ever had
Somebody get me a doctor yeah
It's beyond me how you could go and treat me oh so badWho is your one true friend?
Who is your one true friend?
You're jealous and it's all because of one thingAnd I don't really care if you can hurt me
You know that you'll never have
I'm going to take as much as I can grab
Who is your one true friend?
Who is your one true friend?
In the end you'll have to come to your own defense
Jolene, you were the best friend I ever hadYou're jealous and it's all because of one thing
And I don't really care if you can hurt me
