

Wanna Get Up

2 Unlimited

Last night we had this conversation
You're rushing my heart, there ain't no mistaking
I need someone who's got real emotion
Stop pushing so hard, I need your devotion
Cool down, baby, love don't take a minute
Drives me crazy, every time we're in it
This time, maybe, look and you will see
The way that it was meant to be
So if you wanna get up and if you wanna get down
Now listen, baby, that's the way the world goes round
So if you wanna get up and if you wanna get down
I tell you, baby, that's what love is all about
Now listen up, just stay together
Just get with my mind, so it last forever
I need a lover with a true connection
Straight to the heart, yes, that's my intention
Now cool down, baby, love don't take a minute
Drives me crazy, every time we're in it
This time, maybe, look and you will see
The way that it was meant to be
So if you wanna get up and if you wanna get down
Now listen, baby, that's the way the world goes round
So if you wanna get up and if you wanna get down
I tell you, baby, that's what love is all about
Ooh down, baby
Ooh down
Ooh down, baby
Ooh down
Down baby
So if you wanna get up and if you wanna get down
Now listen, baby, that's the way the world goes round
So if you wanna get up and if you wanna get down
I tell you, baby, that's what love is all about
So if you wanna get up and if you wanna get down
Now listen, baby, that's the way the world goes round
So if you wanna get up and if you wanna get down
I tell you, baby, that's what love is all about
So if you wanna get up and if you wanna get down
Now listen, baby, that's the way the world goes round
So if you wanna get up and if you wanna get down
I tell you, baby, that's what love is all about
