Hot Love Drama

The Management

all of these voices
on my tv
they got nothing to say
we are all are people
some of us free
some of us got it made
whats the concection
some of us sink
some of us fall in love
but when i need it
you bring me things
always knew that you where
hot love drama,it rips you apart
coold down love,to hot from the start
hot love drama,it rips you apart
coold down love,to hot from the start
to hot from the start.
when I was younger
life was all magic
everything fell in place
but i still worrie
worrie for hours
imagining the life we are in

without asleep
but you came and you saw
and you spoke and i call the most fears
but not all
and you stop and ill fall
and i love her and i dont
and you think that im foolish
stop the kids stop the love
that leads to
hot love drama,it rips you apart
coold down love,to hot from the start
hot love drama,it rips you apart
coold down love,to hot from the start
to hot from the start.
to hot from the start.

to hot from the start.
hot love drama,it rips you apart
coold down love,to hot from the start
hot love drama,it rips you apart
coold down love,to hot from the start
to hot from the start.
to hot from the start.
ohhh
