Hospital Waste

Skinny Puppy

blast and raw eye blood shot lid color concealed crimson trap thin
lit mess code of darkness stop the ocean counting blood coughing blood
and needle syringe in the islang thirst of drought raise through the
real end ozone layer ultraviolet embalms sunless fire mistrust abandoning
day long sinking monotones out to please to pattern the grey rain falls
it drizzle colors negate so wild let it slide down time colors look crimson
trains inside lost my footing ooze bite ant landslide no finding what
through a lost door somewhere out there in open space where is there space
to get off and go on there on tv the polluted lies the polluted noise
mistrust no longer they don't give advice mono matters all to pleasing nobody
the grey rain drizzles down my face negate mistrust dementia
