Skies

Alex John

Inside me I stayed trying, Hurts to say Iâ€™m dying
Tears if I was crying At first it was a phase
I hate to see you go I never want to know
Why you left me burned, At first it was phase

Up and walked away Like I made you stay
Inside I cared for you, Outside ur nothing new
First it was phase, Up then walked away
Now you are no more, Nothing but the door

I feel the sky is turning round
I feel my world flipped upside down
I see you here then your over there
You say its true then you never cared
the sky its falling down
The sky its falling down
Every time youâ€™re not around
The sky its falling down

I hate to see you go Its like youâ€™ve never showed
Never cared to grow ,at first it was phase
Turned your back on me Love after a week
then decide to leave, I know its not a phase

Up and walked away Like I made you stay
Inside I cared for you, Outside ur nothing new
First it was phase, Up then walked away
Now you are no more, Nothing but the door

I feel the sky is turning round
I feel my world flipped upside down
I see you here then your over there
You say its true then you never cared
the sky its falling down
The sky its falling down
Every time youâ€™re not around
The sky its falling down

I feel the sky, the sky, the sky its falling down

the sky its falling down
The sky its falling down
Every time youâ€™re not around
The sky its falling down

the sky its falling down
The sky its falling down
Every time youâ€™re not around
The sky its falling down

The sky its falling down
The sky its falling down
Every time youâ€™re not around
The sky its falling down
