

# Yacht Boys

## Howler

I've no... to do the Devil's work, yeah that's something...  
I read that somewhere in a magazine while sucking on stale palma  
Oh baby it's the yacht life that I've been dreaming of  
Oh baby that's a kinder life but I've already fallen in love You haven't heard the worst of it and I'm saying no  
word  
Too busy choking on my medicine, oh haven't you heard  
That nothing ever happens, no no no no  
That nothing ever happens, not ever Let me see you take country clubs sitting at an open bar  
Getting drunk on small chat, then we're smashing up daddy's car You haven't heard the worst of it and I'm  
saying no word  
Too busy choking on my medicine, but oh haven't you heard  
That nothing ever happens, no no no no  
That nothing ever happens, not ever
