

Evening Train

[Van Morrison](#)

Love to hear that evening train go by
Love to hear that evening train go by
Especially when my baby's in my mind Love to hear that lonesome whistle blow
Love to hear that lonesome whistle blow
When I make my way on down the road My my, bye bye
Don't cry, don't sigh
When you hear that evening train go by, alright Love to hear that evening train on time
Love to hear that evening train on time
Especially when there's worries are on my mind My my, don't cry
Why why, don't sigh
When you hear that evening train go by, alright Love to see those fields I used to roam
Love to see those fields I used to roam
Then I know I'm on my way back home My my, goodbye
Don't cry, don't sigh
When you hear that evening train go by One more time When you hear that evening train go by
