

# High

## The Mayfield Four

Long open road  
In the distance, I see you wait for me  
You're my hope and my relief  
Saving grace remove these rusted chains  
Waited so long to be kissed by lips of God  
I'm getting close around the bend is solace  
Home, the sweetest place  
I'll be redeemed I will be safe  
High so very high and I feel okay  
Nothing's in the way, so hold on  
I'm taking off, I'm gonna fly  
Yesterday's gone  
I take a look for one last time  
My stomach turns at the thought of that dark world  
I won't go back, I'm pushing forward and it's good  
High so very high  
(I'm flying high again in liberation)  
And I feel okay  
Nothings in the way  
So hold on  
(I'm holding on again in liberation)  
I'm taking off  
I'm gonna fly  
I'm gonna fly
