

# Nothing but You

## Piper Slattery

There's a woman, oh don't you know  
Always on my mind  
I don't think that she really knows  
How much I've tried  
Met her one time so long ago  
I was so untrue  
I was lost had no place to go  
And I was asking you  
Baby pull me through

Come the weekend, out with a friend  
Who do I see  
There's the girl I've been waiting to know  
Looking so carefree  
I was not gonna spoil it for myself  
Like the time before  
Ask her kindly, girl won't you dance  
Lead her to the floor  
Ask her just once more

Baby listen, won't you listen  
You don't know just what we've been missing  
I just think of you all the time  
C'mon baby just say you're mine  
I ain't living for nothing but you

Oh this woman, I tell you so  
She's the loving kind  
I will get her one day, I hope  
It's a matter of time  
Left my number, she said she'd call  
Call me anytime  
I'll be waiting, ready to go  
We could be doing fine  
Just you give me a sign

Baby listen, won't you listen  
You don't know just what we've been missing  
I just think of you all the time  
C'mon baby just say you're mine

I ain't living for nothing but you  
Nothin' but you
