# Take me down

## Dynazty

Seems I've lingered too long in the darkness
Unlock the door, turn the light on and wait
I should know better than to rest on a promise
This body before you has seen too much pain
I take me down, take me down to the water
Take my hand, learn me all I should know
Here I am and I'm waiting for you
Just give me a sign, oh feet please don't fail me now, no
Don't fail me now, now, now
It's at this time we feel the emotion
Nothing is wasted, nothing is lost
I'm sure that I've been here before sometime
Some bridges are reached but some never are crossed
I take me down, take me down to the water
Take my hand, learn me all I should know
Here I am and I'm waiting for you
Just give me a sign, oh don't let me go, oh
Take me down, take me down to the water
Take my hand, learn me all I should know
Here I am and I'm waiting for you
Just give me a sign, oh feet please don't fail me now
Oh don't fail me now 'cause it's out of my control
I'm coming with you, I'm right beside you

Oh feet don't fail me now, now, now, now, no no
Feet don't fail me now, now, now now
Seems I've lingered too long in the darkness
Unlock the door, turn the light on I wait for you
I should know better than to rest on a promise
But this body before you has seen too much pain
I take me down, take me down to the water
Take my hand, learn me all I should know
Here I am and I'm waiting for you
Just give me a sign, oh don't let me go, oh
Take me down to the water
Take my hand, learn me all I should know
Here I am and I'm waiting for you
Just give me a sign, oh don't fail me now, now, now
Don't fail me now, now, now, don't fail me now

Oh take me down, take me down to the water
Take my hand, learn me all I should know
Here I am and I'm waiting for you
Just give me a sign, oh don't let me go, oh
Take me down, take me down to the water
Take my hand, learn me all I should know
Here I am and I'm waiting for you
