

# **Stark White Stork Approaching**

## **The Features**

Saw you kicking one another in the head  
So I called upon the doctor, and the doctor said:  
    'What am I supposed to do?  
    There isn't one inside, but two,  
    and there's only so much room  
    inside a mother's womb.'

    Stuck inside a dream.  
    Hope it lasts forever.  
Long as we're together gonna dream my life away.  
Vividly I see that stark white stork approaching.  
    Lately he's been coaching our little family.  
        fa fa fa...  
        (tired moan)
