40 Days...

Blessthefall

Let's start at one
And count the days
Let's hope to God that time flies like they say
Cause this instance,
can't distance,
my heart from yours tonight
But I'm lying awake now and I'm holding your picture
It's so cold here without you
And I need you now, cause it's killing me
And I wish somehow, you were here with me
When I fall asleep I feel you with me
Till I fall asleep and you are with me
Could this be more
I've been up all night riding subway lines
Now we're sleeping on your floor
Can we make this a lifetime, you're all I want right now
Life keeps telling me I need to go

But what if I wanna stay
Cause I'm lost here without you
And I need you now, cause it's killing me
And I wish somehow, you were here with me
When I fall asleep I feel you with me
Till I fall asleep and you are with me
I found a love I never have before, you changed me
And I will wait however long it takes, you changed me
You say the words that I've been thinking
I'l never let you go
And I need you now, cause it's killing me
And I wish somehow, you were here with me
When I fall asleep I feel you with me
Till I fall asleep and you are with me
you changed me
you changed me
