# Juxtapozed With U

## Super Furry Animals

It's easy when you know how
To get along without biff, bang, pow
And if I see that you're fed up
I'll stop and give you a leg upOverpriced unreal estate
Surreal estate
The highest price they've hit to date
Creating new divides and tensionYou've got to tolerate
All those people that you hate
I'm not in love with you
But I won't hold that against youYou've got to tolerate
Some of those people that you hate
I'm not in love with you
But I won't hold that against youThis is a tale of two situations
Mutual appreciation
Away from narrow preconception
Avoiding conflict, hypertensionNon-phobic word aerobic
This was my domain
Till someone stole my nameYou've got to tolerate
All those people that you hate
I'm not in love with you
But I won't hold that against youYou've got to tolerate
Some of those people that you hate
I'm not in love with you
But I won't hold that against youLet's get juxtaposed, juxtaposed
Just suppose I juxtaposed with u
Let's get juxtaposed, juxtaposed
Just suppose I juxtaposed with uLet's get juxtaposed, juxtaposed
Just suppose I juxtaposed with u
Let's get juxtaposed, juxtaposed
Just suppose I juxtaposed with uYou've got to tolerate
All those people that you hate
I'm not in love with you
But I won't hold that against youYou've got to tolerate
Some of those people that you hate
I'm not in love with you
But I won't hold that against you
Let's get juxtaposed
