Nothing But the Shell

Steve Wynn

Finally stashed away the vices
Like a shield against the coming crisis
See what drops and see what rises
Watch out for the falling prices[Chorus:]
Stripped away so you could hardly tell
Leaving nothing but the shellRemember when she was a comer
Brighter but a little dumber
Something went down late last summer
I don't suppose you have her numberNever made it to the coda
The CIA destroyed the folder
Brighter but a little older
A teleprompter and a soda
