We Believe In Each Other

Tammy Wynette

We watch the friends we know break and drift apart
And we heard them say too much that hurts and breaks a heart
But that just seems to draw us both closer together
For we believe in each otherYou're happy just having pennies when we know a promise gold
But the rougher rolling ways are tighter we both hold
We laugh at rainy bad times and wait for sunny weather
'Cause we believe in each otherWe believe in each other and where you go darling I will go
Yes we believe in each other and it's all
Because we love each other so
We believe in each other
