Christmas Soul

Ross Lynch

I always love this time of year
watch snow and reindeer yeah
that special something in the air
friends and family everywhere
wha wha aoo
when everybody's singing my heart starts jing - a- lignin'
there's something about those December nights
todays the day let's celebrate with that
Christmas soul
feel that Christmas soul
we'll have a ball
let's deck the halls with that Christmas soul
feel that Christmas soul
we got that reindeer kinda cheer
Santa's flying over here
all the way from the north pole
cause we got Christmas soul yeah we got
Christmas soul
ye- eah
when it goes real cold outside
I'm gonna take you on a sleigh ride
come gather
around the tree and we'll make some memories
aha oo ya
when everybody's singing
my heart starts
jing-a-lingin'
there's something
about those
December nights
todays the day
let's celebrate with that Christmas soul
feel that Christmas soul
we'll have a ball let's deck the halls
with that Christmas soul
we got that reindeer kinda cheer
