

# These Days

## Cheap Trick

I was blind, now I can see  
Your love shines all around me  
All I want is to be here with you  
This is what I was made for Heaven is steps away  
These days everything I am is about you  
These days my world revolves around you  
I don't know what I would be without you  
These days  
These days I was bound now I am free  
The sun shines all around me  
All I want is to be here for you  
Forever more  
Heaven is steps away  
These days everything I am is about you  
Yeah these days my world revolves around you  
I don't know what I would be without you  
These days
