Taking Just a Little Bit of Time

Guy Davis

I like to spend time in the country
City ain't for me
Put down my phone, go out alone
And I let my spirit be(Chorus)
And I'm taking just a little bit of time, baby
Taking just a little bit of time
Taking just a little bit of time, baby
Taking just a little bit of timeI like to go by the river
Sit on the banks all day
With a pole and a line, and nothing on my mind
I can hear what the catfish say(Chorus)I like to take my shoes off
Go barefoot on the ground
Well I take a gander and a little salamander
And I watch him get knocked down (?)(Chorus)I like to play my banjo
Walk the railroad track
I walk all day for miles and miles
Don't care when I get back(Chorus)I keep whisky in my pocket
Sometimes I make it gin
Sometimes I tote a keg of beer
It depends what mood I'm in(Chorus)In the city folks in a hurry
And I gotta get out their way
In the country I go wondering
I won't see a soul all day(Chorus x2)
