

# Walk Out

## Slick Shoes

You cannot break me, how far this takes me  
My mind is racing as I play this song  
Will You walkout? This song is played out  
This thing I'm facing will not go quietlyPlace to place, I see Your face  
Keep me centered now  
Need some sleep, Your song I keep deep within my heartTomorrow's at stake  
But this show won't make my love wander from my promises  
I feel better now and I will carry this song until we are donePlace to place, I see Your face  
Keep me centered now  
Need some sleep, Your song I keep deep within my heart
