

Off With Your Head (feat. Nena Marcella)

Classy Silhouette

Oh No

Oh No

Oh No

That's not how it's gonna go

Oh No

You should be dead by now Classy Silhouette Verse 1:

Yeah I heard what they been saying

But they really should be praying

Because their souls I will be slaying

And respect they will be paying

To the Grim Reaper

The Cemetery gate keeper

Grave digger dig deeper

Tombstones are getting cheaper

Sorry I tried to control it

The head is gone because I rolled it

Grave robbers came and stole it

Now it's mine and I control it

It really doesn't matter what you said

Cuz I'm a off with your head Off with your head

Off off with your head

Off with your head

Off Off with your head

Off with your head

Off Off with your head

That's not how it's gonna go

Oh No

You should dead by now Nena Marcella Verse 2:

I'm a creep creep in your sleep

Put your head to rest in peace

Because the dead they need a feast

You gone have to call the spirit police for me cuz

I'm a crypt keeper

I'm the grim reaper

I'm the boogie man keeper

No need to call a preacher

Cuz I'm your last word guillotine sweeper

I'm your creature double feature

Off with your head

Off Off with your head
Off Off with your head
Off with your head
Off Off with your head
I'm gonna stand my ground
I'm gonna wear my crown
You should be dead by now
Classy Silhouette Verse 3
Well there's a moral to the story
Even though it's kind of gory
You have yet to stand before me
To roll your head would bring me glory
No need for a casket
Just your head in a basket
A reward for the fastest executioner that has it
Don't know who told you I was faking
But they've clearly been mistaken
What I've lost is all my patience
So my silence I'ma break it
I know there won't be peace until your dead
Cuz I'ma off with your head
(off off with your head)
Off with your head
Off Off with your head
Off with your head
Off Off with your head
Off with your head
You should soon be dead
You should be dead by now
Swing low sweet chariot
Coming for to carry you home
Swing low Sweet chariot
Coming for to carry you home
Off with your head
Off Off with your head
I'm gonna stand my ground
I'm gonna wear my crown
You should be dead by now
Oh no
Oh No
Oh No
That's not how it's gonna go
You should be dead by now
