

Burning Bush

16 Horsepower

All the widows watch
Through all window sills
Hair raisin' in every room
Up the street come a walkin' chill
An' you ask for nothin'
'Cept to be by my side See my tears, good father
Will they wash it away
All my dirt from your holy feet
No, I don't believe it works that way
'Cause you ask for nothin'
'Cept to be by my side I seen you in the river
Before God an' man
Held by the holy hand of winter
Brought low by winter's holy hand Yes, my sister girl
I know that it is true
You see me with the Lord's eye, girl
An' you see right through
An' you ask for nothin'
Is there somethin' behind my eyes? I can look good, I swear
When the spirit blows
All ore an' all through, yeah
My wretched bones
An' you ask for nothin'
'Cept to be by my side love I seen you in the river
Before God an' man
Held by the holy hand of winter
Brought low by winter's holy hand
