

He Is There

Caleb Garraway & Katie Garraway

When the trials you face turn into darkest night
And your hoping in someway the darkness will turn to light
And you feel alone and no one is there with you
Never fear my God is holding you

He is there to comfort you when you feel your world is shifting
He is there to hold you when everything is changing
My Lordâ€™s still there

Somedays I was so lost and just couldnâ€™t see him
There were moments I felt my heart would just given
But when you're thru trying and thereâ€™s nothing left to do
Never fear my God is holding you

He is there to comfort you when you feel your world is shifting
He is there to hold you when everything is changing
My Lordâ€™s still there

He is there to comfort you when you feel your world is shifting
He is there to hold you when everything is changing
My Lordâ€™s still there
He is there
He is there
