## Mync

Yeah yeaWe've got a map of the world torn up  
And your future's five bucks a pound  
And I've seen your Mum with her knees pinned back  
You'll pay everything to hear that soundWe drove a truck to the ranch of life  
And came back with another brain  
So shake your ass at the scene tonight  
And open wide and let it drainYou'd better come down  
Now I think you should  
Oh yeah, yeah, yeahWe've got a map of the world torn up  
And your future's five bucks a pound  
I've seen your Mum with her knees pinned back  
You'll pay everything to hear that sound, babyWe drove a truck to the ranch of life  
And came back with another brain  
So shake your ass at the scene tonight  
And open wide and let it drainYou'd better come down  
Now I think you should  
Oh yeah, yeah, yeah  
You'd better come down  
Now I think you shouldYeah yeah yeah  
Yeah oh oh  
Oh yeah, oh yeah  
Oh yeah
