

# Before The Ring On Your Finger Turns Green

[Dottie West](#)

He's just leadin' you on honey he'll be gone  
Before the ring on your finger turns green Your new love is the playboy kind he's not looking for the ties that  
bind

He'll leave you with a tortured mind before the ring on your finger turns green  
He's just leadin' you...He's fickle cheap and phoney too just like the ring he gave to you  
I know cause I've been through it too when the ring on my finger turned green

He's just leadin' you...  
Before the ring on your finger turns green
