Wildflowers

Josh Arnold

run Like wings behind you
And dance like this music's inside you
floating like a feather on a wind of a breeze

love like no one can hear you
and flalake like nobody is near you
this untold beauty

and it's all you need to
Grow free like wild flowers
Grow free in the heart of the sun
Grown Free like wild flowers
For you it's only just begun to shine

give like nobody is asking
and go fourth open heart and
it's all there
under the razor on the endless sky

love like nothing can hurt you
and you don't have to always keep it together
so i don't wanna see you
lose that fire within your eyes

Grow free like wild flowers
Grow free in the heart of the sun
Grown Free like wild flowers
For you it's only just begun to shine

Grow free like wild flowers
Grow free in the heart of the sun
Grown Free like wild flowers
For you it's only just begun to shine
