The Love Experience

Raheem DeVaughn

Yo peace and love
I wanna tell y'all about
The beautiful love experience
(Hope you have time, hope you don't mind)To my cousin I'm hoping you can hear this rhyme
When I ride through the bricks, yeah
I think about you all the time
That cold day I got that phone call, it plays back in my mind
I can still hear your mother cryWell, at least I can say
I had my first experience of love through youAnd to my first girlfriend I know you probably married now
Reminiscing on our prom date
The way I did you yo was kind of foul
But I guess I had to wise up so now I know better now
(But at least I can say)But at least I can say
I had my first experience of love through you
Like how it feels when it comes
What its like when it leavesSo to the woman that betrayed me
I think it's unfair how, how you chose to deceive me
I thought that was my child
Now he's forced inside for nowBut at least I can say
I had my first experience of love through youTo the faith I've lost
(Faith I've lost)
For the friends I've gain
(The friends I've gain)I'm thinking while I'm questioning
Change is a good thing
'Cause with dead weight you can't travel light
(Can't travel light)
Besides I was born to fight so I'm gon' be alright
(Born to fight)But at least I can say
I had my first experience of love through you
Like how it feels, when it comes
What it's like when it leavesTo my moma, to grandma
To my sister
(To my sister)
And say goodbye
(To my family)
After departure day
And my friends told me what happened ohBut at least I can say
I had my first experience of love through you
(I've experienced love)I've experienced the love experience

You should experience the love experience
We are all, all experiments of the love experience
So just experienceWe all should experience
(La, la, la, la, la, la, la, la, la, la, la, la, la, la)
Experience, experienceI've experienced the love experience
You should experience the love experience
We are all, all experiments of the love experience
So just experience
