Oblivion

Indians

I believe, when i see something
it can grow cause I see it in your eyes
Dip it off, still just tell me
Cause it's all written in the starsI can see, even from a distance
It makes sense, want you to be mine
This far end, come, come closer
Let it go, lay it for the endClose to you, I want forever
But it won't last for you to do .. for what it was
Start it out, there's nothing new
Soon to be the beauty of our stars
Start it out, there's nothing new
Soon to be the beauty of our starsI'm in love with you
Sent it to the wall
I know you hear me soon
I live for you and IClose to you, I want forever
But it won't last for you to do .. for what it was
Start it out, there's nothing new
Soon to be the beauty of our stars
Start it out, there's nothing new
Soon to be the beauty of our stars
Start it out, there's nothing new
Soon to be the beauty of our stars
