

You Alone Are God

[Aaron Gillespie](#)

Verse:

With everything in our lungs
We sing out Your praises
Lift them with our voices
You alone are God We hear Your people
Reaching out, we need You
We lift our hands in praise
You alone are God When this life gets hard
We reach out to You

Chorus:

With all that we are
We're screaming out
You alone are God
You're hope of the world
The risen one
You alone are God
