

# Charlie's Watching

## Toy Dolls

Advisory - the following lyrics contain explicit language:

Charlie was a loafer, Charlie was a lout, huh  
But Charlie was the only bloke she ever cared about. Each night when she's alone, Charlies there Charlie was an  
arse, and they said he didn't care  
But Charlie had a heart, now with her everywhere. She always swears she knows that hes there  
and from her bed echoes Charlie's prayer 'Charlies watching over me  
Charlies watching, I can see  
Charlie watching  
over me' They said he was a tramp a vagabond in a vest.  
Charlie Charlie  
But Charlie was the business  
and she says he was the best. And from her bed... Charlie's watching  
[Guitar] Charlie was a loner, just a hobo  
But Charlie was a saint and he's her hero. She always said she... Charlie's watching...
