Don't Say Never

B*Witched

Is this the only way to learn now?
It's the only to part
I sleep at night and remember
All the words you said to meIt won't be long (wont be long)
And I will believe (and I will believe)
That you will be there
(That you will be there)
Don't say neverDon't say never (Don't say never)
To all your dreams now
Cause never is a very long time
To be far away
And I will tell you (and I will tell you)
Just don't say never (Just don't say never)
To all inside your heart
(all inside your heart)
It's Alright
aah aah aah aahSo Only time will tell the future
Like rain you know it falls
Now here at last soon together
Just a night away you'll seeIt won't be long (wont be long)
And I will believe (and I will believe)
That you will be there
(That you will be there)
Don't say neverDon't say never (Don't say never)
To all your dreams now
Cause never is a very long time
To be far away
And I will tell you (and I will tell you)
Just don't say never (Just don't say never)
To all inside your heart
(all inside your heart)
It's Alright
aah aah aah aahDon't Say Never
Don't Say Never
Don't Say Never
Don't Say Never
Don't Say Never
Don't Say Never
Don't Say Never

NeverDon't say never (Don't say never)
To all your dreams now
Cause never is a very long time
To be far away
And I will tell you (and I will tell you)
Just don't say never (Just don't say never)
To all inside your heart
(all inside your heart)
It's Alright
Don't say never (Don't say never)
To all your dreams now
Cause never is a very long time
To be far away
And I will tell you (and I will tell you)
Just don't say never (Just don't say never)
To all inside your heart
(all inside your heart)
It's Alright
