

# Favorite Sin

## Within Reason

My heart beats fast again only seems to flutter  
when you're around  
You seem to cycle a smile that lifts me up often  
brings me down  
My blood runs through my veins endorphin caged companion  
So I'll keep you by my side and dedicate you all my time  
With the pleasure comes the pain that only you know  
could bring  
You've been given all I have when you come around  
I seem to give in  
In a fight I'll never win cus all the while you're my  
favorite sin  
So I salute you with both hands it's been bearable  
pain but time well spent  
Never communicate never say a word always  
keep it in  
Although you often help me you never know what's  
going on  
We seem to have our problems when I'm with you  
I wake up
