

# One More Rhythm

James Ingram

Mighty music light me up tonight  
I can feel the good times comin' on  
Out on the street the beat is burnin' bright  
And every fantasy is filled inside a song

Inhibitions slowly slip away  
The look inside your eyes can say it all  
Can't fight the magic of a night like this  
Got to get on up, give in to love

It's easy when you fall because there's  
One more rhythm to start you dreamin'  
There's one more groove you can try  
Got to keep on dancin' 'til mornin' light

Because there's one more rhythm to ride  
The band is stompin', smokin' to the beat  
A perfect time for lovers everywhere  
And when I hold your body close to me

I know it's more than just tonight we're gonna share  
Shinin' figures, dancin' in a dream  
A boogie ballet bathed in candlelight, ooh  
This is a moment only love can see

Gotta take a chance on this romance  
And never say goodnight because there's  
One more rhythm to start you dreamin'  
There's one more groove you can try

Got to keep on dancin' 'til mornin' light  
Because there's one more rhythm to ride  
You know the party's never over  
As long as love is in your heart

Girl, everything you do  
Just keeps me wantin' you  
This is the time to let that magic rhythm start  
One more rhythm to start you dreamin'

There's one more groove you can try  
Got to keep on dancin' 'til mornin' light  
Because there's one more rhythm to ride  
There's always one more feelin' to start you dreamin'

There's one more groove you can try  
Got to keep on dancin' 'til the mornin' light  
There's one more rhythm that's always screamin'  
There's one more rhythm you can ride
