

# Kids

## Yellowcard

We're the ones that'll rule the world  
That's how it will be!  
yea that's us! we're the kids  
The damn kids of USA Yeah Kids  
Our time is alive still you don't seem to recognise  
you can't be telling to us what to do  
What you seem to do again  
we're sick of all your bullet plans  
your wake it hasn't broken through You don't even know yourself  
don't you go judge me  
you don't even know yourself  
your eyes are blind now can't you see that To those telling us how to live our lives  
seem to forget we're swarming flies  
and we're here living  
On THE SO CALLED LAND OF THE FREE! You don't even know yourself  
don't you go judge me  
You don't even know yourself  
Your eyes are blind now can't you see that KIDS!
