

Like You

[Kelis](#)

Your appearance turn me on
Your natural self, its really comin on strong
There's not too many dudes that catch my eye
But if you stick around Ill give you a slice of the pieI dont just like you, I like you like you
I dont just like you, I like you like you
Can we come together? Can we come together?
You can fluff my feathers, fluff my feathersFirst dates goin real well
He's makin' me hot or is it his cock?
(Aw damn)
No matter the case we get along swell
So whatever if we started tonight, were gonna
So whatever if we started tonight, were gonna
So whatever if we started tonightI dont just like you, I like you like you
(So whatever if we started tonight)
I dont just like you, I like you like you
(So whatever if we started tonight)
Can we come together? Can we come together?
You can fluff my feathers, fluff my feathers
