Better This Way

Adelphi

You know I'd give up everything
To spend one more night in your arms
I'd give up everything
To listen closely to your heartbeat
But now your up and gone
It hurts so bad because I really miss youI wish i'd done it differently
maybe if i played the right cards
youd be here with me
i cant bear this broken heart
ill take the time to see
stop playing games, leave me wonderingif you could see me now
would you beg or would you cry?
would you look me in the eyes and say [x2]
look me in the eyes and sayif you could see me now
would you beg or would you cry?
would you look me in the eyes and sayhow long has it been?
ive been missing you so much
did you miss me or was it better this way? [x2]
or was it better this way?if you could see me now
would you beg or would you cry?
would you look me in the eyes and say
look me in the eyes and sayhow long has it been?
ive been missing you so much
did you miss me or was it better this way? [x2]
or was it better this way?or was it better this way?how long has it been?
ive been missing you so much
did you miss me or was it better this way? [x2]
or was it better this way?
