[Lyrics: Schulman]Darkside recalls my name
Abyssal gates are open wide
My darkened soul
is baptized in blood
Ancient lord,
demon of blasphemiesDarkness prevails,
Lucifer's wrath unleashedDestroy, burn the book of lies
Sacrifice the bastard son,
Jesus Christ
Feast on the Christian flesh
Crucify the servant of GodDarkness prevails
Lucifer's wrath unleashed
Demonic moon arise
I obey my seven signsI skuggan av crucifixet
Ska blodet stromma fritt
Ondskans vind andas
Hamndens skonhet bestar
I dalen av dom fordomda
Jag mitt sate har
Med tusen kristnas blod
Min makt besitter kvarMaster - Open the gates to hell
Messiah - Gather your black hordes
Satan - Show me your victims
I shall - Surround them with flamesInfernal spawn of evil
(We are) one to kill the lordFeel the nails of pain
Carving through the flesh
Brutalized upon the altar
With a crown of thorns
Damnation awaits the sinners
Laceration of the holy has beganBehold the summoning signs
Darkside recalls, chaos filled with blood
Rise from hell and show me the dawn
Day of death, the master has arrived
