

# Rock & Roll Symphony

## Zoot Woman

Rock & Roll Symphony  
Help me tune in on this symphony  
Rock & Roll here with me  
The melody received  
Rock & Roll here with me Need your sound  
Your heart and soul and style  
Always make me smile  
Lose myself a while And all we can design  
Will leave our past behind  
Forget what might deceive  
Make sweet harmony  
Sound that moves so unconditionally Change the way you feel  
Help me tune in on this symphony  
Rock & Roll here with me  
Help me find the key  
Rock & Roll here with me  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
