The Day We Lied

Onesidezero

I'll tuck you in
Make sure the noose is tight
Moving from side to side
It invicts your will to fightI'll hold you always
Clipping your wings away
Laughing at your dismay
Till your end is crownedHold you always, beauty in your eyes
Escape to your world, pleaseAmbush your thoughts this way
Believe in this love affair
Electing your silenced pleas
Comfort all your fearsYea, I'll hold you always
Clipping your wings away
Tying you up this way
Till your end is crownedHold you always, beauty in your eyes
Escape to your world, please
Hold you always, beauty in your eyes
Escape to your world, pleaseTying you up this way
Clipping your wings away
I'm holding you always
I'm clipping your wings awayDon't you wish you could fly
Well come close the end is nearHold you always, beauty in your eyes
Escape to your world, please
I''ll hold you always, beauty in your eyes
Escape to your world, please
