

# Dead Man's Road

## Cinderella

When I was young, old man sat me on his knee  
He told me if I had a dream, I could be, what I wanna be  
Now life goes on, a voice echoes in the wind  
It's tellin' me to carry on, now I know that it's him, he said "Whoa, watch out boy  
Don't go messin' with your life 'cause it ain't no toy  
Lord, help you to carry life's load  
It could all pass you by, down on Dead Man's Road" Now I got a good woman, you know she's lookin' out for  
me  
And if I get a little blind, you know she helps me to see  
But I gotta keep runnin', 'cause they're catchin' up to me  
I think I hear that voice again, this time it says to me, he said "Whoa, watch out boy  
Don't go messin' with your life 'cause it ain't no toy  
Lord, help you to carry life's load  
Don't you let it pass you by, down on Dead Man's Road"  
Look out [Incomprehensible] When I was young, old man sat me on his knee  
He told me if I had a dream, I could be, what I wanna be  
Now life goes on, a voice echoes in the wind  
It's tellin' me to carry on and now I know that it's him, he said "Whoa, watch out boy  
Don't go messin' with your life 'cause it ain't no toy  
Lord, help you to carry life's load  
Don't you let it pass you by, down on Dead Man's Road" "Whoa, watch out boy  
Don't go messin' with your life 'cause it ain't no toy  
Lord, help you to carry life's load  
Don't you let it pass you by, down on Dead Man's Road"
