

Wrapped Around My Finger

Aaron Lafette

I got you wrapped around my finger right now
All day, all night
I got you wrapped around my finger right now
That's the way I like it We started off like lovers,
June 21st the perfect summer
And I wouldn't take those days away
For nothing But the seasons have changed
Fall was blowin' away
Like the leafs on a tree
They don't stay
Now I don't mean to rain on your parade But I got you wrapped around my finger right now
All day, all night
I got you wrapped around my finger right now
That's the way I like it And when your dreams come true
Then you realize it's nothing new
Got you wrapped around my finger, ooh ooh
I got you wrapped around my finger right now I tried, I tried to tell her
To be patient from the start
Cause she knew my situation
And she knew this was my heart It's that time and time again, thing
That gets underneath my skin
There's no need to pretend you
The beginning of the end
I almost gave you all up
My only true love
True love for me,
What I'm tryin' to be
I know something you already know I got you wrapped around my finger right now
All day, all night
I got you wrapped around my finger right now
That's the way I like it And when your dreams come true
Then you realize it's nothing new
Got you wrapped around my finger, ooh ooh
I got you wrapped around my finger right now
(I got you wrapped around my finger right now) I don't know why you try, tearing up my dreams girl
I'm in the sky, living in a dream world
Everybody knows, everybody knows, everybody knows I got you wrapped around my finger right now
All day, all night
I got you wrapped around my finger right now

That's the way I like it I got you wrapped around my finger right now
All day, all night
I got you wrapped around my finger right now
That's the way I like it And when your dreams come true
Then you realize it's nothing new
Got you wrapped around my finger, ooh ooh
I got you wrapped around my finger right now
