

# Hero

## Europe

It's not like I wouldn't dream if you had not shown the way  
It's not like I wouldn't fight not knowing 'bout your life  
It's not like I wouldn't stand right here with my friends You threw us all a line  
When our days slipped away  
You gave us of your time 'Cause you were my hero, my Friday night  
You wrote the soundtrack to my life  
And gave me something to hold on to  
When I was growing up you were the rock in my life It's not like I live my days by every word you spoke  
Like I'm up every night drinking with your ghost  
It's not like I can't look back without movin' on You threw us all a line  
When our days slipped away  
You gave us of your time You were my hero, my Friday night  
You wrote the soundtrack to my life  
And gave us kids a chance to dream  
Days when I had enough you were the rock in my life You still throw me that line  
As my days slip away  
You give me of your time You're still my hero, my Friday night  
You wrote the soundtrack to my life  
You give me something to hold on to  
As I'm still growing up you are the rock in my life
