

Heavy (feat. Karl Kling)

[RAC](#)

Losing your way, yet you stay
While the noise is all around you
Progress was made in good faith
I won't let them take it from you
Be as it may, night and day
From all the love and all the virtue
Peace be with you
Biding your time, broken stride
Are we ever gonna mend you?
All that we have here and now
And I'm counting on a breakthrough
Peace be with you
Finding your light, much the same
As the darkness that you've been through
Carry the weight of the flame
It burns brighter than you meant to
Now we remain in the haze
In the heaviness of truth
Peace be with you And we're all
Heavy with the weight of who we are
Heavy with the weight of who we are
Heavy with the weight of who we are
Heavy with the weight of who we are
Heavy with the weight of who we are
Heavy with the weight of who we are
And we're all
Heavy with the weight of who we are
Heavy with the weight of who we are
Heavy with the weight of who we are
Heavy with the weight of who we are
Heavy with the weight of who we are
Heavy with the weight of who we are
