

# Suzie Hold On (1997 Remaster)

## Saxon

I wish I had a fortune, I'd take the pain away  
We could be together, that's how we need to stay  
'Cause you can change the world  
The world in which you live in, live in  
Suzie hold on Do everything you believe to be right  
Doing it all the time  
Fighting the fight you believe to be right  
Doing it all the time When we were far apart, no one could be closer  
Please don't take your life 'cause that would break my heart  
Try to stop your crying, we both know you're dying, dying  
Suzie hold on Do everything you believe to be right  
Doing it all the time  
Fighting the fight you believe to be right  
Doing it all the time I wish I had a fortune, I'd take your pain away  
We could be together, that's how we need to stay  
'Cause you can change the world  
The world in which we live in, live in  
Suzie hold on Don't you know that you can change the world  
Don't you know that you can change the world  
Change the world, you can change the world  
Suzie, you can change the world I can't stop you crying  
Even though you're dying
