

Speeches

Giez

The second snow was heaven sent
You laid out like evidence
Read all the words you never said
Like speeches for the president
I drew your name in wet cement
Made promises in reverence
To save you for your reference
A victim of circumstance but
Oh, when you lay your hands on me
I know that I can heal
There's a blinding light that no one else can see
Nobody no, nobody but me
Oh oh oh oh oo oh

Nobody no, nobody but me
Oh oh oh oh oo oh
Nobody no, nobody but me
The signatures did finalize
Our pens had found the bottom line
The past that had me paralyzed
And all my future analyzed
Do you think we got it right
The world will disagree this time
Will it turn the wicked tide or be a ghost that keeps us up at night but
Will I never know your name cause I want to?
Did you ever care to say that you want me?
That's all I wanted
