Wash Me Clean

Bernard Fanning

If all the world could take a moment
To cradle back into slow motion
'Cos it's all moving too fastYou had your shot, you took your chances
All through you'd battle for the answers
You were brave 'til the very lastJust like a wave on the ocean
There's forces that run so deep
I'm falling into the temptation
To let it wash all over meCome and wash me clean
Come and wash me cleanA nervous step into the future
While the present shatters all around you
It's all moving too fastAnd now the footprints of your failures
Seep into the safety of the harbor
Leave it all in a dark pastJust like a wave on the ocean
There's forces that run so deep
I'm falling into the temptation
To let it wash all over meCome and wash me clean
Come and wash me clean
Come and wash me clean
