

# Hyper Love (feat. Nat Dunn)

Ferry Corsten

This is the countdown  
This is the song  
We're counting down from ten to one  
We'll fly a rocket  
To kingdom come  
We're gonna flying past the sun A million miles  
We'd go that far  
To write our names on silver stars  
We'll leave the ground  
So far behind  
Nothing's the same after tonight This is the countdown  
This is the song  
We're counting down from ten to one Into hyper love, hyper love  
Into hyper love, hyper love  
Into hyper love, hyper love, hyper love  
You and me in hyper love This is the countdown  
This is the song  
We're counting down from ten to one  
We'll fly a rocket  
To kingdom come  
We're gonna flying past the sun A million miles  
We'd go that far  
To write our names on silver stars  
We'll leave the ground  
So far behind  
Nothing's the same after tonight This is the countdown  
This is the song  
We're counting down from ten to one  
Into hyper love, hyper love  
Into hyper love, hyper love  
Into hyper love, hyper love, hyper love  
You and me in hyper love Into hyper love, hyper love, hyper love  
You and me in hyper love
