

Full Eclipse

Example

I don't know where we go to or when we fade away
I've asked a thousand times on the Road to Mandalay
We live to tell the tale and fight another day
I told an atheist that now's the time to pray
The sun had disappeared for all my life
And it won't reappear for all my life
We're changing worlds so slowly, I know this change so well
We're only friends til' morning, but we'll figure it out ourselves
We'll figure it out ourselves, we're bigger than they can tell
The full eclipse has come again, so we're up against the world
Don't waste a second, go, go choose a weapon
Don't waste a second, go, go choose a weapon
We're changing worlds so slowly, I know this change so well
We're only friends til' morning, but we'll figure it out ourselves
The full eclipse has come again, the full eclipse has come again
The full eclipse has come again, so we're up against the world
Against the world, against the world
The sun had disappeared for all my life
And it won't reappear for all my life
Don't waste a second, go, go choose a weapon
Don't waste a second, go, go choose a weapon
The full eclipse has come again, so we're up against the world
We're changing worlds so slowly, I know this change so well
We're only friends til' morning, but we'll figure it out ourselves
The full eclipse has come again, the full eclipse has come again
The full eclipse has come again, so we're up against the world
