Hollow Man

Iced Earth

Emptiness, consuming me
Head in hands, I can hardly speak
Looking for solitude
Lost in humanityTrue knowledge leads to suffering
A constant quest, an endless dream
Searching for inner peace
Hidden so deep in meDon't wanna be a hollow man
Ain't gonna be the hollow manSadness comes knocking constantly
Filling up my eyes for all to see
Peace will come someday
I pray that it finds a wayDarkness caressing my mind and soul
My spirits rejecting, I'm feeling whole
Emptiness goes away
Fills with the light of dayDon't wanna be a hollow man
Ain't gonna be the hollow manI rise up like the Phoenix
From the ashes of an older way
With wisdom gained, I turn away, I turn away
Hollow man find yourself some other preyDon't wanna be a hollow man
Ain't gonna be the hollow man
